Please reject Mandatory Demand Charges. As a senior citizen on a limited fixed income it is currently hard enough to maximize savings on electricity. With no Social Security COLA this year, and who knows what lies ahead with our weather, providing for basic utilities at reasonable rates is most important. A proposed increase of potentially \$100 a month is not doable for many of us. Don't make it harder for seniors to be responsible citizens. Educate the public about these issues and reject mandatory Demand Charges. Thank you.

### Nature Of Inquiry

Those of us using Solar are already paying a fee to the electric companies for use of the grid. Why are we consistently seeing this issue come up each year, trying to charge even more? What changed from last year when we managed to get this stopped?

To the company:

Please contact the customer to answer rate application questions and provide a written response to the Commission.
